

Pine Dale Mine Blast Monitoring Results - 2017

Date	Park		Noon St.		Summer St.	
	Overpressure (dB)	Vibration (mm/sec)	Overpressure (dB)	Vibration (mm/sec)	Overpressure (dB)	Vibration (mm/sec)
<i>Nil Blasts</i>						

Legend:	
	No trigger
text	Value greater than the EPL blasting requirement for 95% of blasts Limits are as follows: •Airblast overpressure level of 115dB •Ground vibration peak velocity of 5mm/sec
text	Value above EPL blasting limit for 100% of blasts Limits are as follows: •Airblast overpressure level of 120dB •Ground Vibration preak velocity of 10mm/sec
