Reputable, Tier 1 and CEC Approved Products from global, market leading brands, with regular staff training

Triple ISO certified, with safety for you and our staff our number one priority

Partnering with you through the journey to a cleaner energy future

## About EnergyAustralia

We're an energy retailer and generator with 1.6 million customers across eastern Australia, employing 2300 people.

We keep the lights on for customers today, through our energy generation facilities powered by coal, gas and renewables, combined with large-scale storage.

And we're helping to deliver the clean energy system of the future, with projects that will provide flexible generation and enable the growth of renewables.

Our solar product offering is just one way we're helping to make the energy transition simple for our customers.

For all your solar product questions, and for a tailored solution for your needs, get a quote or find out more about us online.
